

# CMS PROGRESSIVE JACKPOT Works On All Games

With over eighty installations CMS Group has the proven progressive product that can improve both productivity and profitability for all your games such as: Oasis poker, Stud poker, American Roulette, Blackjack, Texas hold'em, Punto Banco (Baccarat), Russian poker.

CMS Progressive gives high energy and new excitement to live tables and delivers large incremental profits.

It links between most popular table games and easily adapts to most table games, and allows casino operators to set as many different prizes and Jackpots as they want.

## TOUCH SCREEN

Better Control - The touch screen monitor shows the whole necessary information to control the game.

It allows to concentrate on the main details of the game on each stage and make high control of payouts.

The dealer monitor uses a 8 - 10 inch touch screen for clear game event messaging, prompting and Jackpot process control with PIN codes and Fingerprints authentication.

It has a simple dealer interface, can be in a matter of minutes explained to new staff and dealers.

# MYSTERY JACKPOT

Mystery Jackpot is an additional small Jackpot for heating players passion.

Mystery Jackpot is the additional random Prize that Player could win any time after the sum has crossed minimal edge.

It works in-between minimum and maximum amounts.

Random Number Generator creates a winning sum in this range. Every time when the player bets on the sensor, some % from his bet goes to Mystery Jackpot.

When somebody hits Mystery Jackpot, the system will play music and show animation on the table monitors.

This creates suspense as the bet sensors flash in sequence and land on the chosen lucky sensor — every player feels that he's in with a chance.

## BLACK JACK

Blackjack is one of the world's most widely played casino game.

With the help of CMS progressive side bets, casino drives increased revenues by adding higher levels of player excitement.

Blackjack additional progressive payouts based on 777 s allows options never previously seen in table gaming – Play by credits, Mystery Jackpot and Wheel of Fortune.

## WIDE AREA PROGRESSIVE

A Wide Area Progressive (WAP) is the perfect solution for any casino group to get ahead of its local rivals by featuring the Wide Area Progressive (WAP) in any of its casinos worldwide.

The most interesting point is that your casino, for example, has three properties - all three casinos could be linked to increase the size and the speed of the Jackpot.

This significantly increases the amount of players who will be interested to bet on the Progressive. All winning hands including Jackpot hits will occur 3 times more often. The marketing potential of the wide area game will be ground breaking.
